INDEX OF SUBJECTS

Acidic-soil. *See* Effects of twenty-five years of fertilizer use on maize and wheat yields and quality of an acidic soil in the western Himalayas (Sharma and Subehia), 55

Adoption. *See* Factors affecting the adoption of leguminous cover crops in Nigeria and a comparison with the adoption of new crop varieties (Morse, and McNamara), 81

Agricultural Biotechnology: Country Case Studies – A Decade of Development, edited by Persley, G. J. and MacIntyre, L. R., reviewed by Gunther Hahne, 219

Agricultural Research Policy in an Era of Privatization, edited by Byerlee, D. and Echeverria, R. G., reviewed by J. R. Hillman, 449

Agriculture, Hydrology and Water Quality, edited by Haygarth, P. M. and Jarvis, S. C., reviewed by Richard Williams, 451

Agri-Culture: Reconnecting People, Land and Nature, by Pretty, J., reviewed by Richard S. Musangi, 337

Agroecological Perspectives in Agronomy, Forestry and Agroforestry, by Wojtkowski, P. A., reviewed by R. R. B. Leakey, 450

Allium Crop Science: Recent Advances, edited by Rabinowitch, H. D. and Currah, L., reviewed by Brian Smith, 336

Alternatives to mucuna for soil fertility management in southern Bénin: Farmer perception and use of traditional and exotic grain legumes (Schulz, Honlonkou, Carsky, Manyong and Oyewole), 267

Arenosols of the West African Sahel. *See* Phosphorus placement on acidic arenosols of the West African Sahel (Muehlig-Versen, Buerkert, Bationo and Roemheld), 307

Arthropod Pest Control (An Introduction to), by Thacker, J. R. M., reviewed by Trefor Woodford, 338

Azolla and blue-green algae. *See* An improvized technique for measurement of nitrogen fixation by blue-green algae and *Azolla* using moist soil cores from rice fields (Prasanna, Tripathi, Dominic, Singh, Yadav and Singh), 145

Bénin. *See* Alternatives to mucuna for soil fertility management in southern Bénin: Farmer perception and use of traditional and exotic grain legumes (Schulz, Honlonkou, Carsky, Manyong and Oyewole), 267

Bénin. *See* Cowpea yield gain from resistance to *Striga gesnerioides* parasitism in Southern Bénin (Carsky, Akakpo, Singh and Detongnon), 327

Bhutan. *See* Effects of farmyard manure, fertilizers and green manuring in rice-wheat systems in Bhutan: Results from a long-term experiment (Chettri, Ghimiray and Floyd), 129

Biological Control of Crop Diseases, edited by Gnanamanickam, S., reviewed by Jonathan Smith, 219

Biomass. *See* On-farm experiments with maize-mucuna systems in the Los Tuxtlas region of Veracruz, southern Mexico. I. Mucuna biomass and maize grain yield (Eilittä, Sollenberger, Littell and Harrington), 5

Blue-green algae. *See* An improvized technique for measurement of nitrogen fixation by blue-green algae and *Azolla* using moist soil cores from rice fields (Prasanna, Tripathi, Dominic, Singh, Yadav and Singh), 145

Bud rot in oil palm in Latin America (de Franqueville), 225

Cabernet Sauvignon. *See* Effects of drought-stress on mycorrhizal and non-mycorrhizal Cabernet Sauvignon grapevine, grafted onto various rootstocks (Nikolaou, Angelopoulos and Karagiannidis), 241

Calcite and gypsum roles in the leaching of potassium in a sandy soil (Jalali and Rowell), 379

Camel calf loss: Differences between pastoralists' and scientists' perceptions of the causes (Kaufmann), 363

Camellia sinensis. *See* tea

Cassava in Malawi: Grouping locations for efficient evaluation (Mkumbira, Mahungu and Gullberg), 167

Coconut (*Cocos nucifera*). *See* Ethrel stimulation of inflorescence sap flow in tapped coconut palms (Ranasinghe and Waidyanatha), 161

Cocos nucifera. *See* coconut

Compaction of subsoil. *See* Persistence of subsoil compaction effects on soil properties and growth of wheat and cotton in Pakistan (Ishaq, Ibrahim and Lal), 341

Corchorus olitorius. *See* wild okra

Cotton and wheat growth, and soil properties in Pakistan: Persistence of subsoil compaction effects (Ishaq, Ibrahim and Lal), 341

Cover-crop (leguminous) adoption in Nigeria and a comparison with the adoption of new crop varieties (Morse, and McNamara), 81
Cowpea root characteristics in relation to drought tolerance at the seedling stage (Matsui and Singh), 29
Cowpea yield gain from resistance to *Striga gesnerioides* parasitism in southern Bénin (Carsky, Akakpo, Singh and Detongnon), 327
Crop yield/water-use response functions: Effects of water availability and vine harvesting frequency on the productivity of sweet potato in southern Mozambique. (Gomes and Carr, III), 409
Crop-Soil Simulation Models: Applications in Developing Countries, edited by Matthews, R. B. and Stephens, W., reviewed by S. Azam-Ali and R. Burgess, 336

Developing improved dryland cropping systems for maize in semi-arid Tanzania. Part 1: Experimental evidence for the benefits of rainwater harvesting (Hatibu, Young, Gowing, Mahoo and Mzirai), 279. Part II. Use of a model to extrapolate and add value to experimental results (Gowing, Young, Hatibu, Mahoo, Rwehumbiza and Mzirai), 293
Dormant yam (*Dioscorea* Spp.) tubers: Sprouting induction with inhibitors of gibberellins (Shiwachi, Ayankanmi, Asiedu and Onjo), 209
Drought tolerance with respect to root characteristics in cowpea at the seedling stage (Matsui and Singh), 29
Drought-stress effects on mycorrhizal and non-mycorrhizal Cabernet Sauvignon grapevine, grafted onto various rootstocks (Nikolaou, Angelopoulos and Karagiannidis), 241
Dryland cropping systems for maize in semi-arid Tanzania. Part 1: Experimental evidence for the benefits of rainwater harvesting (Hatibu, Young, Gowing, Mahoo and Mzirai), 279
Dryland field-trial improvement due to spatial variability models (Singh, Malhotra, Ceccarelli, Sarker, Grando and Erskine), 151

Economic and Social Issues in Agricultural Biotechnology, edited by Evenson, R. E., Santaniello, V. and Zilberman, D., reviewed by George Rothschild, 338
Environmental Effects of Transgenic Plants. The Scope and Adequacy of Regulation, produced by the US National Research Council, reviewed by M. A. Mayo, 335
Ethrel stimulation of inflorescence sap flow in tapped coconut (*Cocos nucifera*) palms (Ranasinghe and Waidyanatha), 161
Evaluation of on-farm soil fertility research in the rainfed lowland rice fields of Sukumaland, Tanzania (Meertens, Kajiru, Ndege, Enserink, and Brouwer), 65

Farmer management of integrated *Striga hermonthica* control technologies (Schulz, Hussaini, Kling, Berner and Ikie), 99
Farmer perception and use of traditional and exotic grain legumes as alternatives to mucuna for soil fertility management in southern Bénin: (Schulz, Honlonkou, Carsky, Manyong and Oyewole), 267
Farmers, Scientists and Plant Breeding. Integrating Knowledge and Practice, edited by Cleveland, D. A. and Soleri, D., reviewed by N. L. Innes, 109
Farmers' preferences regarding fodder trees and shrubs in central Kenya (Roothaert, Franzel and Kiura), 423
Farming Systems and Poverty 2001: Improving Farmers' Livelihoods in a Changing World, by Dixon, J., Gulliver, A. and Gibbon, D., reviewed by A. H. Kassam, 109
Farmyard manure, fertilizers and green manuring in rice-wheat systems in Bhutan: Results from a long-term experiment (Chettri, Ghimiray and Floyd), 129
Fertilization: Phosphorus availability as affected by the application of phosphate rock combined with organic materials to acid soils in western Kenya (Waigwa, Othieno and Okalebo), 395
Fertilizer (phosphorus) placement in acid Arenosols of the West African Sahel (Muehlig-Versen, Buerkert, Bationo and Roemheld), 307
Fertilizers, farmyard manure, and green manuring in rice-wheat systems in Bhutan: Results from a long-term experiment (Chettri, Ghimiray and Floyd), 129
Fertilizer-use (25 years) effects on maize and wheat yields and quality of an acidic soil in the western Himalayas (Sharma and Subehia), 55
Fodder trees and shrubs preferred by farmers in central Kenya: Their on-farm evaluation (Roothaert, Franzel and Kiura), 423
Fruits for the Future 2 – Ber, edited by Pareek, O. P., reviewed by Rex Brennen, 451

Germination enhancement of wild okra (*Corchorus olitorius*) through seed treatments (Velempini, Riddoch and Batisani), 441
Gibberellin inhibition to induce sprouting in dormant yam (*Dioscorea* Spp.) tubers (Shiwachi, Ayankanmi, Asiedu and Onjo), 209

Global Rangelands. Progress and Prospects, edited by Grice, A. C. and Hodgkinson, K. C., reviewed by J. M. Suttie, 337
Grain legumes in pearl millet systems in northern Namibia: an assessment of potential nitrogen contributions (McDonagh and Hillyer), 349
Green manuring, farmyard manure, and fertilizers in rice-wheat systems in Bhutan: Results from a long-term experiment (Chettri, Ghimiray and Floyd), 129
Gypsum and calcite roles in the leaching of potassium in a sandy soil (Jalali and Rowell), 379

Handbook of Plant Growth: pH as the master variable, edited by Rengel, Z., reviewed by Roberto Viola, 109

India: A survey of *Phalaris minor* in rice-wheat systems (Franke, McRoberts, Marshall, Malik, Singh and Nehra), 253
India: Modelling the influence of irrigation on the potential yield of tea (*Camellia sinensis*) in the north-east (Panda, Stephens and Matthews), 181
Indo-Gangetic plains: New practices in the cultivation of the mint (*Mentha arvensis*) in the (Singh, Srivastava, Kalra, Bansal, Tomar, Bahl and Kumar), 199
Induction of sprouting in dormant yam (*Dioscorea* Spp.) tubers with inhibitors of gibberellins (Shiwachi, Ayankanmi, Asiedu and Onjo), 209
Inflorescence sap-flow stimulation by ethrel in tapped coconut (*Cocos nucifera*) palms (Ranasinghe and Waidyanatha), 161
Inhibitors of gibberellins used to induce sprouting in dormant yam (*Dioscorea* Spp.) tubers (Shiwachi, Ayankanmi, Asiedu and Onjo), 209
Integrated control of *Striga hermonthica* under farmer management: Technology evaluation (Schulz, Hussaini, Kling, Berner and Ikie), 99
Ipomoea batatas. *See* sweet potato
Irrigation: Modelling its influence on the potential yield of tea (*Camellia sinensis*) in north-east India (Panda, Stephens and Matthews), 181

Kenya: On-farm evaluation of fodder trees and shrubs preferred by farmers (Roothaert, Franzel and Kiura), 423
Kenya: Phosphorus availability as affected by the application of phosphate rock combined with organic materials to acid soils in the western region (Waigwa, Othieno and Okalebo), 395

Latin America: Oil palm bud rot (de Franqueville), 225
Leaching of potassium in a sandy soil: The role of calcite and gypsum (Jalali and Rowell), 379
Leguminous cover-crop adoption in Nigeria and a comparison with the adoption of new crop varieties (Morse, and McNamara), 81
Location grouping for efficient cassava evaluation in Malawi (Mkumbira, Mahungu and Gullberg), 167
Lockhart and Wiseman's Crop Husbandry. Eighth Edition, by Finch, H. J. S., Samuel, A. M. and Lane, G. P. F., reviewed by D. K. L. MacKerron, 221

Maize and wheat yields and quality as affected by twenty-five years of fertilizer use on an acidic soil in the western Himalayas (Sharma and Subehia), 55
Maize grain yield and mucuna biomass. On-farm experiments with maize-mucuna systems in the Los Tuxtlas region of Veracruz, southern Mexico. (Eilittä, Sollenberger, Littell and Harrington, I), 5
Maize in semi-arid Tanzania: Developing improved dryland cropping systems. Part 1: Experimental evidence for the benefits of rainwater harvesting (Hatibu, Young, Gowing, Mahoo and Mzirai), 279
Malawi: Grouping locations for efficient cassava evaluation (Mkumbira, Mahungu and Gullberg), 167
Manihot esculenta. *See* cassava
Market Development for Genetically Modified Plants, edited by V. Santaniello, V., Evenson, R. E. and Zilberman, D., reviewed by Nigel Kerby, 220
Mathematical Models of Crop Growth and Yield, III, by Overman, A. R. and Scholtz, R. V., reviewed by Bruce Marshall, 449
Measurement, of the nitrogen fixed by blue green algae and *Azolla* using moist soil cores from rice fields (Prasanna, Tripathi, Dominic, Singh, Yadav and Singh), 145
Mentha arvensis. *See* mint
Mexico: Mucuna biomass and maize grain yield. On-farm experiments with maize-mucuna systems in the Los Tuxtlas region of Veracruz. (Eilittä, Sollenberger, Littell and Harrington, I), 5
Mint (*Mentha arvensis*) cultivation in the Indo-Gangetic plains: New practices (Singh, Srivastava, Kalra, Bansal, Tomar, Bahl and Kumar), 199
Model use to extrapolate and add value to experimental results in developing improved dryland cropping systems for maize in semi-arid Tanzania. Part II. (Gowing, Young, Hatibu, Mahoo, Rwehumbiza and Mzirai), 293
Modelling the influence of irrigation on the potential yield of tea (*Camellia sinensis*) in north-east India (Panda, Stephens and Matthews), 181
Models (spatial variability) to improve dryland field trials (Singh, Malhotra, Ceccarelli, Sarker, Grando and Erskine), 151

Mozambique: Water availability and vine harvesting frequency effects on the productivity of sweet potato in the south. II. Crop water use (Gomes and Carr), 39
Mucuna biomass and maize grain yield. On-farm experiments with maize-mucuna systems in the Los Tuxtlas region of Veracruz, southern Mexico. (Eilittä, Sollenberger, Littell and Harrington, I), 5
Mucuna variety evaluation and subsequent maize yield in on-farm experiments with maize-mucuna systems in the Los Tuxtlas region of Veracruz, southern Mexico. II. (Eilittä, Sollenberger, Littell and Harrington), 19
Mucuna-alternatives for soil fertility management in southern Bénin: Farmer perception and use of traditional and exotic grain legumes (Schulz, Honlonkou, Carsky, Manyong and Oyewole), 267
Mycorrhizal and non-mycorrhizal Cabernet Sauvignon grapevine grafted onto various rootstocks: Effects of drought stress (Nikolaou, Angelopoulos and Karagiannidis), 241

Namibia: An assessment of potential nitrogen contributions by grain legumes in pearl millet systems (McDonagh and Hillyer), 349
Natural Resources Management in African Agriculture: Understanding and Improving Current Practices, edited by Barrett, C. B., Place, F. and Aboud, A. A., reviewed by Robert H. Booth, 335
New practices in the cultivation of the mint (*Mentha arvensis*) in the Indo-Gangetic plains (Singh, Srivastava, Kalra, Bansal, Tomar, Bahl and Kumar), 199
Nigeria: Adoption of leguminous cover crops and a comparison with the adoption of new crop varieties (Morse and McNamara), 81
Nitrogen contributions by grain legumes in pearl millet systems in northern Namibia: an assessment of the potential (McDonagh and Hillyer), 349
Nitrogen fixation by blue-green algae and *Azolla*: Measurement using moist soil cores from rice fields (Prasanna, Tripathi, Dominic, Singh, Yadav and Singh), 145
Nitrogen: Effects of phosphorus placement in acid Arenosols of the West African Sahel (Muehlig-Versen, Buerkert, Bationo and Roemheld), 307

Oil palm bud rot in Latin America (de Franqueville), 225
On-farm evaluation of fodder trees and shrubs preferred by farmers in central Kenya (Roothaert, Franzel and Kiura), 423
Organic materials combined with phosphate rock: The effect of their application on phosphorus availability in acid soils in western Kenya (Waigwa, Othieno and Okalebo), 395
Oryza sativa. *See* rice

Pakistan: Persistence of subsoil compaction effects on soil properties and growth of wheat and cotton (Ishaq, Ibrahim and Lal), 341
Pastoralists and scientists differ in their perception of the causes of camel calf losses (Kaufmann), 363
Pasture management: Differences in perception of causes of camel calf losses between pastoralists and scientists (Kaufmann), 363
Pearl millet systems in northern Namibia: An assessment of the potential nitrogen contributions by grain legumes (McDonagh and Hillyer), 349
Pearl millet: Effects of phosphorus placement in acid Arenosols of the West African Sahel (Muehlig-Versen, Buerkert, Bationo and Roemheld), 307
Pennisetum glaucum. *See* pearl millet
Perception differences. *See* Differences in perception of causes of camel calf losses between pastoralists and scientists (Kaufmann), 363
Persistence of subsoil compaction effects on soil properties and growth of wheat and cotton in Pakistan (Ishaq, Ibrahim and Lal), 341
Phalaris minor in the Indian rice-wheat system: A survey (Franke, McRoberts, Marshall, Malik, Singh and Nehra), 253
Phosphate rock (combined with organic materials) application to acid soils in western Kenya: Its effect on phosphorus availability (Waigwa, Othieno and Okalebo), 395
Phosphorus availability as affected by the application of phosphate rock combined with organic materials to acid soils in western Kenya (Waigwa, Othieno and Okalebo), 395
Phosphorus use efficiency in acid Arenosols of the West African Sahel (Muehlig-Versen, Buerkert, Bationo and Roemheld), 307
Physical Methods in Agriculture – Approach to Precision and Quality, edited by Blahovec, J. and Kutilek, M., reviewed by D. K. L. MacKerron, 452
Plant Biotechnology and Transgenic Plants, edited by Oksman-Caldently, K-M. and Barz, W. H., reviewed by Mark Taylor, 451
Plant Roots: The Hidden Half. Third Edition, edited by Waisel, Y., Eshel, A. and Kafkafi, U., reviewed by Glyn Bengough, 219
Potassium leaching in a sandy soil: The role of calcite and gypsum (Jalali and Rowell), 379
Principles of Tropical Agronomy, by Azam-Ali, S. N. and Squire, G. R., reviewed by M. K. V. Carr, 222

Quantitative Genetics, Genomics and Plant Breeding, by Kang, M. S., reviewed by John E. Bradshaw, 450

Rainfed lowland rice fields of Sukumaland, Tanzania: Evaluation of on-farm soil fertility research (Meertens, Kajiru, Ndege, Enserink, and Brouwer), 65
Rainwater harvesting benefits dryland maize cropping systems in semi-arid Tanzania. Part 1: Experimental evidence (Hatibu, Young, Gowing, Mahoo and Mzirai), 279
Resistance of cowpea to *Striga gesnerioides* parasitism, in southern Bénin, causing yield gain (Carsky, Akakpo, Singh and Detongnon), 327
Rice Almanac: Source Book for the Most Important Economic Activity on Earth, edited by Maclean, J. L., Dawe, D. C., Hardy, B. and Patel, G. P., reviewed by A. H. Kassam, 337
Rice in rainfed lowland fields of Sukumaland, Tanzania: Evaluation of on-farm soil fertility research (Meertens, Kajiru, Ndege, Enserink, and Brouwer), 65
Rice-wheat systems in Bhutan as affected by farmyard manure, fertilizers and green manuring: Results from a long-term experiment (Chettri, Ghimiray and Floyd), 129
Rice-wheat systems in India: A survey of the presence of *Phalaris minor* (Franke, McRoberts, Marshall, Malik, Singh and Nehra), 253
Root characteristics in cowpea related to drought tolerance at the seedling stage (Matsui and Singh), 29

Science and the Garden, edited by Ingram, D. S., Vince-Prue, D. and Gregory, P. J., reviewed by Harry M. Lawson, 449
Science, Agriculture and Research. A Compromised Participation? By Bulher, W., Morse, S., Arthur, E., Bolton, S. and Mann, J., reviewed by John K. Coulter, 222
Seed Dispersal and Frugivory. Ecology, Evolution and Conservation, edited by Levey, D. J., Silva, W. R. and Galetti, M., reviewed by G. R. Squire, 221
Seed treatments for enhancing germination of wild okra (*Corchorus olitorius*) (Velempini, Riddoch and Batisani), 441
Simulation-model use to evaluate the influence of irrigation on the potential yield of tea (*Camellia sinensis*) in north-east India (Panda, Stephens and Matthews), 181
Soil fertility management in southern Bénin using alternatives to mucuna: Farmer perception and use of traditional and exotic grain legumes (Schulz, Honlonkou, Carsky, Manyong and Oyewole), 267
Soil fertility research (on-farm) in the rainfed lowland rice fields of Sukumaland, Tanzania (Meertens, Kajiru, Ndege, Enserink, and Brouwer), 65
Soil properties and growth of wheat and cotton in Pakistan: Persistence of subsoil compaction effects (Ishaq, Ibrahim and Lal), 341
Soils: Phosphorus placement on acidic Arenosols of the West African Sahel (Muehlig-Versen, Buerkert, Bationo and Roemheld), 307
Spatial variability models to improve dryland field trials (Singh, Malhotra, Ceccarelli, Sarker, Grando and Erskine), 151
Spice Crops, by Weiss, E. A., reviewed by Nigel Maxted, 221
Sprouting induction in dormant yam (*Dioscorea* Spp.) tubers with inhibitors of gibberellins (Shiwachi, Ayankanmi, Asiedu and Onjo), 209
Striga gesnerioides parasitism in southern Bénin: Yield gain from resistant cowpea (Carsky, Akakpo, Singh and Detongnon), 327
Striga hermonthica integrated-control technologies under farmer management (Schulz, Hussaini, Kling, Berner and Ikie), 99
Subsoil compaction: *See* Persistence of subsoil compaction effects on soil properties and growth of wheat and cotton in Pakistan (Ishaq, Ibrahim and Lal), 341
Survey of *Phalaris minor* in the Indian rice-wheat system (Franke, McRoberts, Marshall, Malik, Singh and Nehra), 253
Sweet potato in southern Mozambique and the effects of water availability and vine harvesting frequency on its productivity. III. Crop yield/water-use response functions (Gomes and Carr), 409
Sweet potato productivity as affected by water availability and vine harvesting frequency in southern Mozambique. II. Crop water use (Gomes and Carr), 39

Tanzania: Developing improved dryland cropping systems for maize. Part 1: Experimental evidence for the benefits of rainwater harvesting (Hatibu, Young, Gowing, Mahoo and Mzirai), 279
Tanzania: Developing improved dryland cropping systems for maize. Part II. Use of a model to extrapolate and add value to experimental results (Gowing, Young, Hatibu, Mahoo, Rwehumbiza and Mzirai), 293
Tanzania: Evaluation of on-farm soil fertility research in the rainfed lowland rice fields of Sukumaland (Meertens, Kajiru, Ndege, Enserink, and Brouwer), 65
Tea (*Camellia sinensis*) in north-east India: Modelling the influence of irrigation on potential yield (Panda, Stephens and Matthews), 181

Tomorrow's Agriculture: Incentives, Institutions, Infrastructure and Innovations, edited by Peters, G. H. and Pingali, P., reviewed by Mike Collinson, 110
Trees on the Farm: Assessing the Adoption Potential of Agroforestry Practices in Africa, edited by Franzel, S. and Scherr, S. J., reviewed by F. T. Last, 339
Triticum aestivum. *See* wheat

Using the Agricultural, Environmental and Food Literature, edited by Hutchinson, B. S. and Greider, A. P., reviewed by W. H. Macfarlane Smith, 220

Variety evaluation of mucuna and subsequent maize yield in on-farm experiments with maize-mucuna systems in the Los Tuxtlas region of Veracruz, southern Mexico. (Eilittä, Sollenberger, Littell and Harrington, II), 19
Vigna unguiculata. *See* cowpea
Vine harvesting frequency and water availability and effects on the productivity of sweet potato in southern Mozambique. II. Crop water use (Gomes and Carr), 39
Vine harvesting frequency and water-availability effects of on the productivity of sweet potato in southern Mozambique. III. Crop yield/water-use response functions (Gomes and Carr), 409

Waste Composting for Urban and Peri-Urban Agriculture: Closing the Rural-Urban Nutrient Cycle in Sub-Saharan Africa, edited by Dreschel, P. and Kunze, D., reviewed by Robert Haward, 335
Water availability and vine harvesting frequency effects on the productivity of sweet potato in southern Mozambique. III. Crop yield/water-use response functions (Gomes and Carr), 409
Water availability and vine harvesting frequency effects on the productivity of sweet potato in southern Mozambique. II. Crop water use (Gomes and Carr), 39
Water use by sweet potato (*Ipomoea batatas*) crops. Water availability and vine harvesting frequency effects on the productivity of sweet potato in southern Mozambique (Gomes and Carr, II), 39
Weeds. A survey of *Phalaris minor* in the Indian rice-wheat system (Franke, McRoberts, Marshall, Malik, Singh and Nehra), 253
West African Sahel: Phosphorus placement on acid Arenosols (Muehlig-Versen, Buerkert, Bationo and Roemheld), 307
Wheat and cotton growth, and soil properties in Pakistan: Persistence of subsoil compaction effects (Ishaq, Ibrahim and Lal), 341
Wheat and maize yields and quality as affected by twenty-five years of fertilizer use on an acidic soil in the western Himalayas (Sharma and Subehia), 55
Wheat-rice systems in Bhutan as affected by farmyard manure, fertilizers and green manuring: Results from a long-term experiment (Chettri, Ghimiray and Floyd), 129
Wheat-rice systems in India. A survey of the presence of *Phalaris minor* (Franke, McRoberts, Marshall, Malik, Singh and Nehra), 253
Wild okra (*Corchorus olitorius*). *See* Seed treatments for enhancing germination of wild okra (Velempini, Riddoch and Batisani), 441

Yam. *See* Induction of sprouting in dormant yam (*Dioscorea* Spp.) tubers with inhibitors of gibberellins (Shiwachi, Ayankanmi, Asiedu and Onjo), 209
Yield of maize grain. *See* On-farm experiments with maize-mucuna systems in the Los Tuxtlas region of Veracruz, southern Mexico. II. Mucuna variety evaluation and subsequent maize yield (Eilittä, Sollenberger, Littell and Harrington), 19

Zea mays. *See* maize
